DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. **Claims 8, 9, 11, 19** are rejected under 35 U.S.C. 102(e) as being anticipated by Dumont (US 6,140,858).

Regarding claim 8, Dumont discloses the claimed subject matter “A communication having a transmit/receive protection circuit with first and second strings of series connected diodes; wherein the strings are independently controllable to carry predetermined independent DC currents” in Figure 2, elements 62-65, wherein elements 62, 63 teach a first string of series connected diodes and elements 64, 65 teach a second string of series connected diodes. The current in the first and second string of diodes are “independently controllable”, for instant, by element 107.

Regarding claim 19, see claim 8 above.

Regarding claim 9, Dumont further teaches the claimed subject matter "wherein ... supply terminals" in Figure 2, elements 53, 71, 106, and ground.

Regarding claim 11, Dumont further teaches the claimed subject matter "wherein ... therebetween" in Figure 2, elements 58, 59.

Allowable Subject Matter

3. Claims 1-5, 7, 12-18 are allowed.

Response to Arguments

4. Applicant's arguments filed 10/25/04 have been fully considered but they are not persuasive.

The communication system disclosed by Dumont does include transmitting and receiving as part of the circuit (col. 1, lines 21-25).

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2634

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
